Education

### **Carnegie Mellon University**

BFA in Industrial Design

Minor in Intelligent Environments

Pittsburgh PA, 2018

Experience

### **Industrial Designer at Bally Design**

Pittsburgh, Jun 2023 - Present

Leadership of client projects from ideation through product development, including client communication and budget management. Emphasis on discovery research, sketching, prototyping, CAD, and rendering.

### **Freelance Industrial Designer**

Boston, Dec 2022 - Jun 2023

Industrial Design and rendering of motorized curtain tracks for a home automation brand.

### **Industrial Designer at Tool, Inc.**

Marblehead, Mar 2022 - Nov 2022

Design work for start-ups and corporate clients using sketching, Solidworks, and Keyshot. Collaboration with in-house engineers to develop concepts into production-ready designs.

### **Creative Director at Climate Creatives**

Boston, Oct 2018 - Mar 2022

Design of public sculptures, workshops, and community engagement programs using art and design to bring emotional impact to climate data.

### **Industrial Design Intern at UBER Advanced Technologies Group**

Pittsburgh, Summer 2017

Research and design of an autonomous mobility service as part of the Advanced Vehicle Design team. Hardware design using 3D scanning and rapid prototyping.

### **Industrial Design Intern at The University of Pennsylvania**

Philadelphia, Jun 2016 - Dec 2016

Development of interactive prototypes using sensing fabrics. Close collaboration with engineers and researchers of the mLab and xLab to create product concepts.
